

THE SPECTRA DIFFERENCE

Mobile enterprise resource planning (ERP) and customer resource management (CRM) solutions from Spectra Interface™ extend critical services across the entire supply chain — securely and cost-effectively. Our solutions help companies **improve business performance and capitalize on growth opportunities.**

Spectra Interface provides end-to-end solutions for enterprise mobility. Our complete solution consists of:

- **Hardware:** Rugged mobile computers from Symbol Technologies, a world leader in enterprise mobility.
 - **Software:** Spectra mobility software securely, seamlessly, and cost-effectively extends ERP and CRM systems to mobile and remote users.
 - **Global, world-class Support:** IT staff and mobile workers alike appreciate Spectra's global service network for complete service and support anytime, anywhere.
 - **Tools for managing your devices:** Spectra makes it easy to manage your devices and support your users — no matter where they are. Spectra has it covered:
 - Automated software updates
 - Remote device access, management, and troubleshooting
 - Easy password management
 - Real-time device monitoring and prevention of data loss due to battery failure
